

### **Letzte internationale Konferenz im EGEA Projekt in Indien**

14.09.2022 - Letzte Woche reiste Juliana Hilf nach Nagpur, Indien, zum abschließenden Partnertreffen des Erasmus+ CBHE-Projekts EGEA, welches sie im Auftrag der Otto-von-Guericke-Universität Magdeburg koordiniert.

Unsere Partner vom Priyadarshini Institute of Engineering and Technology (PIET) waren Gastgeber der Abschlussveranstaltung und organisierten eine internationale Konferenz zum Thema "Adopting Green Initiatives for Sustainability", die nach einer Pressekonferenz mit lokalen Journalist\*innen eröffnet wurde. Sie hatten Juliana Hilf als Ehrengast eingeladen, und gemeinsam mit Dr. Vivek Nanoti, Dr. Carlos Machado, Rajendra Singh (dem so genannten Waterman of India) und anderen eröffneten sie die Konferenz

mit dem Entzünden der heiligen Lampe und einigen einleitenden Worten zur nachhaltigen Entwicklung in Indien und weltweit.

In dieser Woche wurden auch "Green Change Makers" und herausragende Studierende ausgezeichnet, welche die im Rahmen dieses Projekts entwickelten Kurse absolviert hatten, und es stand ein Besuch im National Environmental Engineering Research Institute (NEERI) an, das beeindruckende innovative Technologien für eine grünere Zukunft erforscht und entwickelt.

Mit dem heutigen Tag geht das Projekt zu Ende und wir möchten uns im Namen der OVGU bei sämtlichen Projektpartner\*innen, den wunderbaren Gastgeber\*innen, den klugen und wissbegierigen Studierenden und allen inspirierenden Wissenschaftler\*innen für die erfolgreiche Zusammenarbeit danken. Wir freuen uns auf die nächsten Projekte!

## 2-day meet on sustainability begins

The two-day international conference on adopting green initiatives for sustainability (ICAGIS) got off to a thought provoking start thanks to Rajendra Singh, the conservationist known as the water man of India, on Wednesday.

"Development starts with displacement of soil, greenery and people living in the area. This development is creating destruction. Today, we are facing climate change and global warming only because of this development," Rajendra Singh, who was the chief guest of the inaugural function of the inter-

Dignitaries during inauguration of two-day international conference on sustainability at Priyadarshini College of Engineering on Wednesday.

national conference, said during his speech.

PCE is organising the conference in association with National Environmental Engineering Research Institute (CSIR-NEERI) under the banner of Enhancing Green Economy

in three countries of Asia. Around 35 delegates from reputed universities of six European countries and three Asian countries are participating in the conference. Dr Carlos Machado, educational advisor, Basel, Switzerland, and Juliana

Hilf, Otto von Guericke (OVG) University, Magdeburg, Germany, were guests of honour in the inaugural function.

The function was presided over by Abhijeet Deshmukh, director, LTJSS. Dr Vivek Nanoti, project head and director engineering, LTJSS, emphasized the need of networking to exchange constructive ideas for sustainable development. Plenary lectures on relevant topics were delivered by Prof NB Singh, Sharda University, Noida, Keerthi D Souza and Dr Nitin Labhsetwar, NEERI, Nagpur.
